

Depureco Buddy Compact Industrial Vacuum

The Compact & Powerful Industrial Vacuum

The Buddy is a compact powerful industrial vacuum that was originally designed to be used with electric or pneumatic power tools for dust free operation from sanding or grinding. The on-board micro-processor allows the automatic start/stop of the vacuum once the customer supplied hand tool is engaged. The Intelligent Filter Cleaning System (IFCS) automatically cleans the filter only when needed. The Buddy vacuum is also great for wood floor refinishing concrete grinding and everyday general cleanup.

Buddy Features:

- * Heavy-duty molded polypropylene housing
- * 120 Volt plug-n-go operation
- * 2000 Watt outlet for remote hand tools
- * Pneumatic air connections for air powered tools
- * Auto start/stop when connecting remote tools
- * Automatic IFCS filter cleaning system
- * Disposable pre-filter bag to protect main cartridge filter
- * 1.25" x 8.5' of vacuum hose and cuffs

Options and Accessories:

- * Hose and tool kits
